

# Index

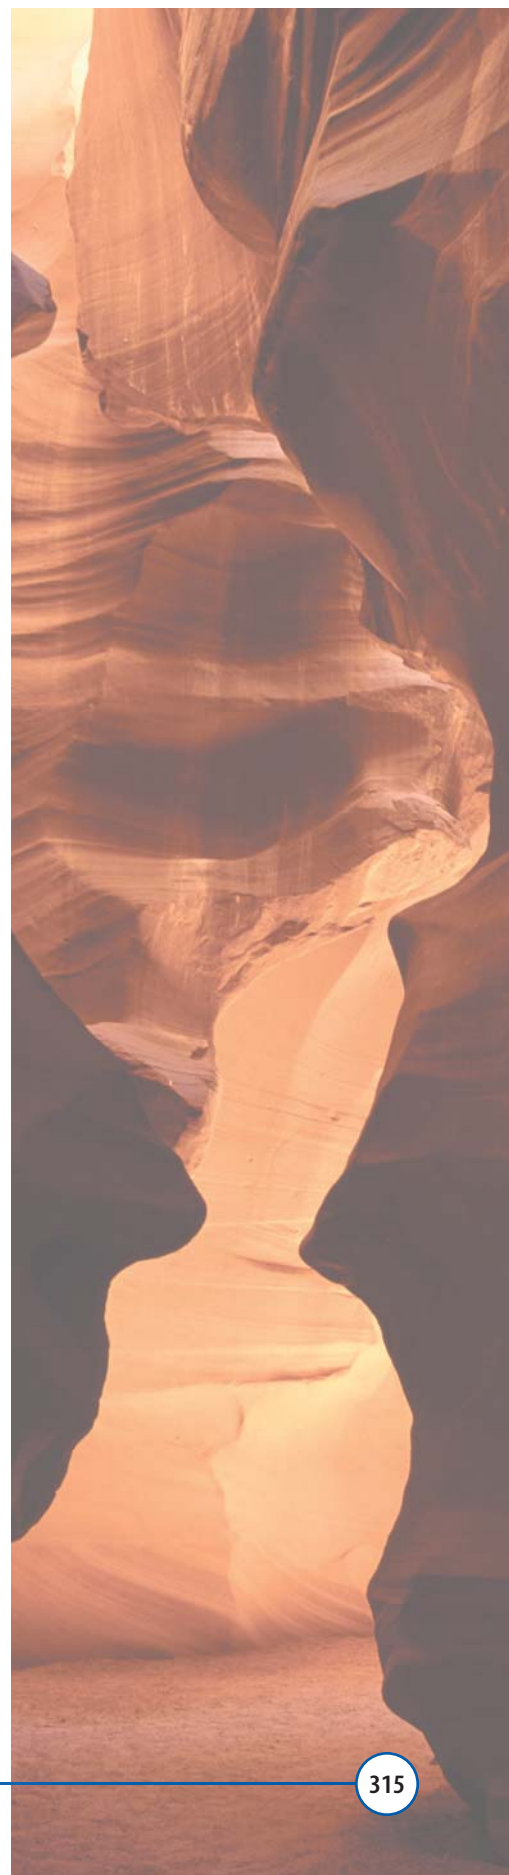

## A

- AC-3 format, 83
- add chapter point, 108
- Add Subtitle Track command, 130
- adjustment layers, 200
- Adobe Encore DVD (see Encore)
- After Effects, 118
  - creating Encore layers in, 205
  - Encore and, 204–206
- AIFF format, 83
- aligning objects, 162
- alignment guides, 160
- AlphaDVD, 30
- anamorphic format, 46
- angles, 67
- animated buttons in menus, 154
- antialiasing, 164
- application formats, 31, 39–42
  - audio formats (see audio, formats)
  - CD video formats, 40
  - defined, 31
  - DVD video formats, 39
- Arrange command, 284
- aspect ratios, 275
  - display, 80
  - field, 123
  - pixel, 80
  - scaling adjustment, 87
  - screen, 80
  - widescreen, 81
- assets, 73–104
  - default, 10
  - defined, 6
  - deleting, 91
    - warning, 104
  - importing, 91, 103

- managing, 92
- managing in Encore, 96
- name and information columns, 88
  - offline, 95
  - preview thumbnail, 90
  - properties, 96–97
  - transcoding, 241–259
- Assign To Highlights command (After Effects), 205
- audio
  - background for menus, 153
  - calculating how much space is taken by, 244
  - editing tools, 33
  - formats, 40, 45–72, 83, 84
  - language, 120
  - streaming, 66
  - tracks, 108, 118
    - specifying language, 120
- AUDIO\_TS folder, 48
- AutoPlay feature, 47, 262
- autoplay option in Windows XP, 47
- AVI format, 77

## B

- background audio in menus, 153
- background details, 189, 196, 200
- backup files (BUP), 48
- bitrate encoding limits, 249
- bit budgeting, 243, 246
- Blending Options command, 199
- BMP file format, 140
- bounding boxes, 14, 160
- Bring Tracks Into View command, 136

building discs, 237–272  
 Build DVD menu, 259  
 burning media  
   DVDs, 26  
   multiple copies of a disc, 270  
 buttons  
   aligning a group of, 168  
   animated, 154  
   codes, 307  
   colors, 177, 291  
   creating, 171–173  
   graphics, 19  
   highlights, 53, 290  
     adding, 173–175  
     alternate menus, 312  
     colors, 285  
   inaccessible, 307  
   invisible, 306  
   layers, 169–171  
     naming conventions, 170  
   linking to clips and chapters, 154  
   number, 176  
   Play/Pause, 8  
   replacing, 168  
   routing  
     approaches, 180  
     automatic, 181  
     defined, 53  
     manual, 181  
     setting, 180  
     to other elements, 181  
   routing and numbering, 179–182  
   secret, 307  
   subpicture highlights, 174  
 Button Properties palette, 175–176, 225  
   Auto Activate, 176  
   Create Text Subpicture, 176  
   Highlight, 175  
   Link, 176  
   Name, 175  
   Number, 175  
   Override, 176  
 B (bidirectional) frames, 251

**C**

CD video formats, 40  
 CGMS (Copy Generation Management System), 41

chaining links (see links, chaining)  
 channel bits, 35  
 chapters, 56  
   clips and, 154  
   secret, 309  
   versus scenes, 59  
 chapter points, 107, 116  
   linking buttons to, 154  
 Character palette, 16, 163–164  
   Anti-aliasing Options, 133  
   Baseline shift, 132  
   Color, 133  
   Horizontal scale, 132  
   Kerning, 132  
   Leading, 132  
   Tracking, 132  
   Vertical scale, 132  
 Check Project command, 233, 301  
 cleaning up window layout, 6  
 Clear command, 91  
 Clear Guides command (Photoshop), 201  
 clip-based DVD, 212  
 clips  
   accessing from multiple menus, 214  
   linking buttons to, 154  
   movies and, 63  
   reusing with playlists, 303  
   sharing, 239  
   using portion as first-play, 215  
 CMYK versus RGB in menus, 202  
 codec, 74  
 colors  
   adjusting for television viewing, 277  
   matching, 292  
 color group, 133  
 Color Picker, 135  
 Color set, automatic, 179  
 color sets, 133, 134  
 commentary, 302  
 content protection, 41  
 Content Scrambling System (CSS), 263  
 converting formats outside Encore, 76  
 Convert To Button command, 283  
 Convert to Button command, 282  
 Convert to Object command, 282

copying objects, 160  
 Copy Generation Management System (CGMS), 263  
 Copy Layer Style command, 198  
 copy protection, 263  
 Create After Effects Composition command, 204, 278  
 Create Button command (After Effects), 205  
 Create Subpicture command, 174, 283  
 creation controls, 91  
 credits, 68  
 CSS (Content Scrambling System), 41  
 Cut, Copy, and Paste command, 160  
 cutting objects, 160  
 CyberLink PowerDVD, 59

**D**

dash format, 37  
 data files, 47, 49  
 De-Interlace command, 276  
 De-Interlace command (Photoshop), 203  
 default workspace, 3  
 deinterlaced video, 258  
 delete key, warning, 103  
 digital media asset files (see assets)  
 Direct Select tool, 19, 160  
 discs  
   capacity, DVD versus computer, 34  
   finalizing, 27

- End Action, 121, 224
- end action links, 210

## F

- FAB format, 140
- FAB Images Script command, 141
- finalizing discs, 27
- first play, 52, 210, 227
- First Play icon, 11
- Flip command, 284
- Flip Horizontal command, 160
- Flip Vertical command, 160
- folders
  - managing assets with, 92
- Folder Options... command, 102
- formats
  - anamorphic, 46
  - application (see application formats)
  - converting outside Encore, 76
  - logical (see application formats)
  - physical (see physical formats)
  - video, 46
- format compatibility, 37
- form factors, 38
- Frame command (Adobe Premiere Pro), 276

- fullscreen, 80
- fullscreen aspect ratio, 81
- fullscreen video, 46

## G

- GIF file format, 140
- graphical subtitles, 295
- Group Of Pictures (GOP), 250, 252
- guides, 160
- guide lines, 284

## H

- help, tooltips, 7
- Help command, 7
- hidden tracks, 309
- highlighting
  - automatic, 290
  - buttons, 290
  - color matching, 292
- highlights
  - (see also subpictures, highlight layers)
  - creating, 282
- high definition (HD), 30
- History command, 18
- Hue/Saturation command, 200

## I

- I-Frame, 107
- image editing tools, 33
- image files, 25
  - formats, 85
- image script, 140
- Image Script command, 141
- Import as Asset command, 7, 77, 80, 84
- Import as Menu command, 146
- Import Subtitles dialog box, 138
- inaccessible buttons, 307
- informational discs, 294
- information files (IFO), 48
- InterActual Player, 45, 49
- interframe compression, 251
- interlaced video, 258
- interlacing, 203, 276
- Interpret Footage command, 87, 123, 203, 276
- InterVideo WinDVD, 64–67

intraframe compression, 250  
invisible buttons, 306  
I (intra) frames, 251

## J

JACKET\_P folder, 48  
jacket picture content, 48  
JPG/JPEG file format, 140

## K

kerning, 132  
keyboard shortcuts  
  100% size, 111
