1 Introduction	1
What Is Small Form Factor?	1
Why Small Form Factor?	2
Small Form Factor Systems	4
More Cool Hardware	9

2	Digital Audio Jukebox	13
	Introducing the VIA EPIA-M	13
	Additional Hardware	14
	Step 1: Install and Configure Gentoo Linux	19
	Step 2: X Windows and XMMS	31
	Step 3: Infrared Remote Control	35
	Case Modding	46
	Extra Credit	51
3	Digital Video Recorder with MythTV	55
	Introducing the Shuttle ST62K XPC	56
	Operating System: Gentoo Linux	60
	X Windows	64
	MythTV	67
	Adding a Remote Control	73
	Starting MythTV Automatically	79
	Using Your TV as the Display	80
	Extra Credit	85
4	Home Network Gateway	88
	Introducing the Soekris net4501	91
	Additional Hardware	92
	Installing OpenBSD	92
	From Installation to Gateway	105
	Packet Filter (pf)	108
	Extra Credit	116

5	Network Monitor	119
	Introducing the Soekris net4801	120
	Additional Hardware	121
	Installing FreeBSD	122
	Arpwatch	130
	Nagios	131
	Snort	140
	RRDTool	150
	Extra Credit	160
6	Wi-Fi Extender	165
	Introducing the Access Cube	166
	Assembling the System	167
	Exploring the Access Cube	168
	Wi-Fi Configuration	175
	Antenna Options	180
	Using the Wi-Fi Extender	181
	Building a Console Cable	184
	Extra Credit	186
7	A Portable, USB-Powered, Bridging Firewall	191
	Introducing the OpenBlockS	192
	SSD Linux	193
	Turning the OpenBlockS into an Ethernet Bridge	200
	Using the Firewall	208
	Powering OpenBlockS via USB	211
	Extra Credit	213

8 Cheap Wi-Fi SSH Client	223
Introducing the Ziplt Wireless Messenger	223
Updating the Ziplt Firmware	225
Playing with the BURN3 Firmware	230
Loading OpenZiplt	232
Playing with OpenZiplt	234
Extra Credit	235
9 Bluetooth LED Sign	237
Introducing the gumstix	238
Assembling the System	239
Exploring the gumstix	240
Building Software for the gumstix	241
Learning About Bluetooth	244
The Pro-Lite LED Sign	249
Putting It All Together	252
Sending Messages to the Sign	258
Extra Credit	265
Appendix: Running an NFS Server	271
About NFS	271
The Exports File	271
Starting NFS Services	272
Mounting	273
Index	274
